

“

I believe NIS attracts teachers who want to make a difference, that's why I am here. It's great being part of a welcoming community like at NIS. Students have excellent work ethics and manners both inside and outside the classroom. Class sizes are very small and facilities and resources are adequately growing. Expect a lot of entertainment during lunch breaks from Kazakh children, as they love to dance and sing in the main hall.

My apartment is close to school and fellow teachers are mostly within walking distance. I came in winter and am grateful that all buildings, transport and schools are well heated and shops are in ample supply.

“

Things are going well here. For all the differences, I'm loving Kazakhstan. The people are amazing, the students ultra bright and the local staff are incredibly dedicated. There's nothing quite like a class of 12 super bright students to remind you of the very reasons why you went into teaching in the first place! I definitely intend to stay if NIS will have me!

“

I am continuing to learn, grow and teach here. My department is amazing and I am really enjoying the children.

”

“

I am truly loving it. The staff are very supportive and I hope to stay for another 3-4 years.

“

I am really settling in well at NIS. The children are wonderful, the staff are supportive and lovely to the international staff. Everything is going on well and I am really enjoying my new role at NIS Uralsk. Special thanks to TIC Recruitment for getting me to NIS.

“

The have settled in well. The staff at the school have been very helpful. We are just getting into the swing of things and most importantly the students are amazing, pleasure to be working with them.

“

I truly love the school and am having a fine time. Everybody, both international staff and local, have all been tremendous.
